Company News 2015

Genesis Water Technologies, Inc. is at the forefront of sustainability and innovation to meet the water quality challenges of our commercial, industrial and municipal client base across the US and around the world.

New Corporate Website Launch:

Genesis Water Technologies announces launch of our new corporate website, www.genesiswatertech.com.

The website launched last month for the U.S. market in English and was launched globally with translation capability in over 30 languages last month as well.

The new website design showcases the company's expertise and its focused efforts on sustainability and innovation.

The Genesis Water Tech redesign is another important step in the implementation of our new corporate strategy launched last year.

This digital gateway for the Company represents the value, confidence, focus, and expertise our clients have come to expect from Genesis Water Technologies.

Additionally, the re-launched website represents another step towards aligning Genesis Water Technologies with our clients and collaborating engineering and local construction partners in one unified mission "to use innovation to meet the water needs of the world".

We look forward to working with you to meet your next water challenge with innovative sustainable solutions that you have to come to expect from Genesis Water Technologies, Inc.
