

Using Innovation To Meet The Water Needs Of The World

Our proven municipal water treatment solutions are designed, engineered, and built to meet or exceed US EPA and World Health Organization (WHO) standards for drinking water and waste water applications serving municipalities and communities, humanitarian and non governmental clients.

We have the expertise to provide these specialized solutions to municipal authorities and humanitarian organizations throughout the world to alleviate problems associated with water scarcity and drinking water-related health issues including water borne disease.

For applications including:

- Potable Drinking Water
- Domestic Waste water treatment

Our Solutions Offer You:

- Optimized Management of Water
- Modular Design for Environmental Footprint Reduction
- Lower Operating & Maintenance Costs
- Simple Integration into existing and new facilities
- Regulatory Compliance

Genesis Water Technologies provides maximum flexibility and value for our clients and local partners around the world to assist them in dealing with environmental compliance issues and the challenges associated with water scarcity.

Serving our clients specific needs

Specialized Technologies include:

Drinking Water Technologies

- Reverse Osmosis Desalination (Sea Water & Brackish Water Sources)
- Ultrafiltration
- Nanofiber Prefiltration Technology
- Specialized Electrocoagulation
- Specialized Filtration Systems
- ZeoTurb medium
- Disinfection (UV, Chlorination, Advanced Oxidation)
- Remineralization

Waste Water Treatment Technologies

- Moving Bed Bioreactor (MBBR)
- Primary Filtration
- Dissolved Air Flotation
- Specialized Electrocoagulation
- Disinfection
- Tertiary Filtration (Water Reuse) (Reverse Osmosis, Specialized Filtration)

Genesis Water Technologies provides technical support agreements and system consumables agreements for our water treatment solutions including:

- Filtration medias (Anthracite, GWT Zeolite, Calcite, Activated Carbon, KDF, Sand)
- Membranes / Membrane Vessels
- Filter Cartridges
- Resins
- RO Anti-scalant chemicals

Sustainable Water Treatment Solutions

Drinking Water, Waste Water Treatment
Sea Water Desalination and Mobile Water Purification
